***Competitive Fee								

***Subsidized Fee Income Range:** Subsidized means “paid for” or “financially supported”. In this case, the California Department of Education has contracted North Marin Community Services to provide income eligible families help paying for childcare, depending on the families need (work schedule, school schedule, etc...). Your family’s income must fall in to this range based on family size in order to qualify.

*****Competitive Fee Income Range:** North Marin Community Services offers competitive rates to our childcare families in comparison to other childcare options available throughout Novato. We strive to provide excellent licensed childcare at affordable rates for the community.
